- What trends are emerging nationally or regionally
- What institutional models exit (public/private) that have adapted to change well?
- How has leadership accelerated or been a barrier to change?
- How has technology be an enabler for change in a rural environment?
• What stakeholders do we need to make into greater champions to address rural transportation needs?
• How do federal, state, local roles impact the adaption of institutions and people?
• Do we need new workforce development models?
